

California Dental Hygienists' Association
The Voice of Dental Hygiene

July 30, 2021

Dear Dental Hygienists,

On July 26, 2021, the [California Department of Public Health](#) issued an order for unvaccinated workers in high-risk settings. Dental offices and dental hygiene fall under this category and in order to keep you informed, the California Dental Hygienists' Association (CDHA) has provided this link:

PUBLIC HEALTH OFFICER ORDER

We support community health and we encourage everyone to take the precautions they feel are necessary. If you have additional questions and concerns, we recommend looking to your local county health departments for the guidelines in your specific area. For your convenience, you can find a list of all [county public health department links](#) on CDHA's website in the Resources section under Industry Links or COVID-19.

Sincerely,

A handwritten signature in black ink, appearing to read "H. Coggan", with a long, sweeping flourish extending to the right.

Heidi Coggan, RDHAP, BS
